The Old  
Forge

The Old forge, Church Street.

As far as we know the only business that ever ran from here was a forge. The garage on the W arm of the house <sup>(on Church St)</sup> has the flues from a forge in it. We understand that the floor above was the hay loft for the horses in times past.

We don't have any documents or photos relating to the past of the property.

Sorry we can't be more help!

Jane & David Wallis
