1940s

The Morris Dancers, as they have done for centuries, made their annual appearance at Bampton yesterday. They visited all classes in the village and gave their dances and a cut at the historic cake for all who patronised them. They are seen performing their dance in the village street.

# BANK HOLIDAY IN AN OXFORDSHIRE VILLAGE

Throughout Bank Holiday, in weather that was kindly favourable, the Oxfordshire village of Bampton held high festival in traditional manner. From early morning till late at night country dances were given in the streets by two bands of dancers dressed as in olden time in white suits and bowler hats beaded with ribbons and floral garlands. As the day went on visitors arrived from other villages and towns by omnibus, coach, and car.

# BAMPTON UNDER WATER.

## HEAVY WHITSUN STORM IN WITNEY DISTRICT. 1932

Witney and district had the full force of the storm which raged last week-end, and a number of roads in the area were rendered almost impassable. The Ducklington road and places near Witney railway station were almost a foot under water, and the meadows on the east side were flooded.

Bampton was particularly unfortunate, and here the deluge was described by some as in the nature of a cloudburst. A heavy storm raged from 10.40 on Sunday night to 5 o'clock on Monday morning.

Water poured down every street. Weald was practically flooded out, and furniture was floating in houses in the Buckland-road. For half a mile the Buckland-road was flooded to a depth of two feet in places, and the same state of affairs prevailed at Weald Arches. Motor-buses in this area had to negotiate many places with water up to the footboards.

The customary folk dance festival on Whit-Monday was carried out, and people in the flooded areas were transported to the dancing places on the backs of bicycles, in wagons, and on the backs of men wading through the water.

Many fowls were lost in the flooded meadows, and there was the unusual spectacle of chickens being rescued by men in wagons.

Other parts in the Witney district, notably Clanfield, were also flooded.

### "SIDE" OF MORRIS MEN TO COME TO LONDON.

---

The little Oxfordshire village of Bampton-in-the-Bush is all astir with excitement.

For the first time on record London is to have a real "side" of Morris dancers to help celebrate May-day, and it is the Bampton Morris men whom Miss Mary Neal, honorary secretary of the Esperance Guild of Morris Dancers, has chosen to dance at her May-day festival to be held in the Globe Theatre.

Bampton is going to show London what real dancing is.

Centuries before ragtime shuffles came to London, Bampton was famous for its Morris men, and never in living memory has there been a Whit-Monday on which the Morris was not danced there on the green under the clock in the old church tower.

There will be nine of them coming to London—six dancers, the fool (who, without his bells, is just the plain village sweep), the fiddler (no other than the Bampton newsagent), and the swordbearer, old Uncle Harry, seventy-seven, who will take round the cake and collecting-box.

All six dancers will be in white trousers and shirts, hung about with bells. Their boots will be workaday hobnailed ones, and their bowler hats, decked with a middle-front spike of flowers, will look like the last thing in French millinery.

"After the Bampton men have danced on May-day, the young folk of the Esperance Club will have their turn," Miss Mary Neal told an "Express" representative yesterday. "Then will come Miss Nellie Chaplin's pupils with country dances from 'Playford's Dancing Master.'

"The Hon. Neville Lytton has promised to dance a solo jig and to undertake the flute accompaniments."
