

Robin

Thanks for the loan of the key - I have now got the ISBN of the book.

An interesting chat about the Archive..... now you are Chairman, I can give you an exhibit, which I received only a few days ago.

While doing the work on the lintel etc, upstairs in the Grammar School, it was necessary to replace some of the floorboards, and the builders found this on one the underside of one.

It relates to the relaying of the floor to the upstairs in 1914.

The builder, Drew Warren has had it in his van for ages!

Drew
