March 2016

Dear Janet Rouse

The most important vote in your life!

You will soon have the opportunity to vote in a referendum, its importance cannot be over emphasised. Your vote will determine our future relationship with the EU.

In 1975, we voted for a Free Trade Area known then as the Common Market. Since that time it has sought without our approval ever greater political union. This takes away our right to choose our own future and how we trade with the rest of the world. Expect much misinformation over the coming months that you will need to filter.

The European Parliament regularly passes laws and rules inappropriate to us. It presides over enormous waste. We pay dearly for this intrusion to our freedom; €20 billion every year (that would go a long way to reducing our national deficit). And the EU's budget continually rises well above the rate of inflation. We get some back, but with limited choice over how it is spent and in most cases, that spending has to be matched by the host region or country – yes, we pay twice!

A spurious argument suggests the loss of jobs; this is ludicrous. We buy more from the EU than they buy from us. It would be financial suicide for them to impose trade barriers. You will be subject to scaremongering by interests who benefit from remaining. Many so-called "independent organisations" accept payment from Brussels. I urge you to listen to real people and entrepreneurs who create wealth, not heads of big institutions whose cushy lives will be disrupted by change. Ask yourself, does the EU benefit you or make your life evermore complicated? It certainly adds a huge amount to your grocery bill.

Our politicians should champion a balanced view, but their own political futures seem to be taking precedence. The future of United Kingdom is at stake, which is infinitely more important than political careers. This letter should give you a few pointers. However, to help with your decision it is vital that comment is not political. I belong to no political party. On a daily basis, I am undertaking to issue a reason to leave, this has been on Twitter since 1st March (@PkhPeter). That's 115 reasons – and that's the tip of the iceberg. I challenge anyone to come up with anything approaching so many reasons to stay.

Continued overleaf
