A large, abstract sculpture of a figure with a sun-like head and wings, mounted on a black pedestal. The sculpture is made of rusted metal and has red and blue ribbons. The figure's head is a stylized sun with a face, and its wings are large, flat, and spread out. The sculpture is positioned in the center of the garden, in front of a green lattice fence and a stone wall.

A tall, slender, silver sculpture with a circular top and a curved base, standing on a stone wall. The sculpture has a modern, abstract design with a circular top and a curved base.

A simple wooden bench with a flat top and four legs, positioned on the left side of the lawn. The bench is made of weathered wood and is situated on a grassy area.

A lush garden with a green lawn, a stone wall, and a green lattice fence. The garden is filled with various plants, including purple flowers, green foliage, and a large tree in the background. A wooden bench is on the left, and a large abstract sculpture is in the center. The scene is set in a backyard with a wooden building visible in the background.
